

SECURE CODING TRAINING SIDE-BY-SIDE COMPARISON

<p>Multiple levels of progressive content plus topic areas not covered by other secure coding competitors (AI/LLM others).</p>	<p>TECHNICAL DEPTH OF CONTENT</p> 	<p>Large quantity of labs with limited format variety focused on developers.</p>
<p>Conversational podcast-style videos featuring industry experts who clearly describe concepts.</p>	<p>VIDEOS WITH IMPACT</p> 	<p>Limited quantity of brief animated videos with voice over.</p>
<p>Multiple types of lessons that require coding in a live web app to apply learned concepts with pre-warmed sandboxes for positive learner experience.</p>	<p>HANDS-ON TRAINING</p> 	<p>High quantity of lab style hands-on content, but the labs can take up to a minute to load.</p>
<p>Customizable pre-built paths for compliance, topics and more than a dozen discrete development team roles.</p>	<p>CUSTOMIZABLE ROLE-SPECIFIC LEARNING PATHS</p> 	<p>Customizable pre-built learning paths based upon language, level, or status.</p>
<p>Purpose-built function for tracking Security Champion practical hands-on activities.</p>	<p>SECURITY CHAMPION PROGRAM MANAGEMENT</p> 	<p>No function for managing security champion activities.</p>
<p>Reporting that can be filtered on any user property from SSO or SCIM and includes reports that show knowledge improvement.</p>	<p>ANALYTICS & INSIGHTS</p> 	<p>Reporting functionality with separate reports for learning paths, labs, learners, competency score, and accuracy score.</p>
<p>Every customer receives an assigned CSM who proactively provides program guidance. Learners have access to in-app chat during business hours.</p>	<p>CUSTOMER SUCCESS AND SERVICE</p> 	<p>Few resources available to support customers and professional services with all based in Europe.</p>
<p>Platform customization to align program themes, SOC2 compliant to protect data, SSO and SCIM support for easy user management, WCAG support for impaired learners across all lessons.</p>	<p>ENTERPRISE-GRADE FEATURES</p> 	<p>SecureFlag doesn't appear to have any of these features.</p>
<p>100% dedicated to training members of the SDLC to create more secure software.</p>	<p>PRODUCT FOCUS</p> 	<p>Small company with threat modelling and secure coding training products.</p>
